

AI training that actually sticks — from someone who got there before ChatGPT.

Rupert Chesman is an AI educator, filmmaker and author of *The AI-Native Playbook*. He was working commercially in AI nine months before ChatGPT existed — invited into OpenAI's DALL·E 2 early artist access programme in June 2022 — and has taught AI continuously since February 2023: 700+ students this year, plus hands-on corporate training. No slides-and-theory; teams leave using AI the same day.

OFFERS & PRICING AUD, ex GST — tailored on a discovery call first

"Rupert's up-to-the-minute knowledge of this space is incredibly impressive... a skilled and experienced facilitator who makes the subject matter fun, interesting, and accessible without ever dumbing it down. I'd recommend Rupert without hesitation to any individual or organisation."

Jenny Steadman · National Director, Potential Project · LinkedIn recommendation, June 2026
